

**AUTOMATION
SOLUTIONS
SIMPLIFIED**

After 34 years of building dream homes and emerging as a top brand in the name of Malles Construction, Malles Group has diversified to extend their services at a technological level as Malles Automation. Holding on to the principles of unwavering commitment and customer-centric service, we look forward to satisfying a diverse range of customers and to rise as a leader in this niche domain.

V I S I O N

Our vision is to revolutionize the way industries function by enabling customized automation and integration across a wide spectrum of robotic applications. We aim to combine our passion for robotics with practical implementation, creating an environment geared towards efficiency and betterment, thus helping companies on their journey to the pinnacle of perfection.

Our mission is to partner with companies aiming for technological excellence by providing them with high quality automation solutions at affordable prices. Our focus is not just the machine by itself, but the cost-effective integration of our solutions within every organisation in order to create a long-term, and mutually profitable relationship. We aim to thoughtfully design our systems to combine ingenuity and innovation in such a manner as to help save time and money.

GUIDED BY EMINENCE

It gives me immense pride to address you as the Chairman of Malles Constructions Pvt. Ltd. It is a name that embodies everything that a Real Estate developer craves for - a proud history, majestic projects across Chennai, and the customer's trust in the brand. Our history is a testament to our passion for constant innovation with a pragmatic approach towards delivering homes with the strongest of quality standards. It gives me tremendous pleasure in welcoming you to the vast and ever-growing Malles family.

PRECAUTIONS TO ENSURE SAFETY

We strictly advise all persons involved in operation/service of the system, including MALLEES AUTOMATION AND ROBOTIC SYSTEMS to follow all safety regulations at all times. It's highly recommended to read the manuals and other safety related documents carefully. We would like to highlight that all products described in this catalogue are general industrial robots. Therefore, we request you to please contact us if you wish to use the robots for special purposes, which might otherwise endanger the operator or might lead to the robot developing problems. The photographs you see in this catalogue are taken after carefully removing safety fences and other safety devices that are stipulated in the safety regulations of the robot's operating system.
