Malles Group of Companies began its journey as Malles Constructions in 1980. From our founding as a construction company over three decades ago, to our present diversification into the fields of hospitality, fitness and automation; we have kept as constant our commitment to our core values of excellence in quality, customer satisfaction and value for money. Our award winning enterprises aim to satisfy a diverse range of customers and look forward to transcending boundaries as we forge new paths to continue our journey ahead.

U. Chandraprakasam

Founder & Chairman

It gives me immense pride to address you as the Chairman of Malles Group of Companies. It is a name that embodies everything that I could have hoped for in the company that we have painstakingly built over the course of several decades with consumer-centric pragmatic innovation.

I take great pleasure in inviting you to explore all that Malles has to offer and to discover for yourself why so many satisfied customers trust our brand.

U. Nagamalleswari

Co-Founder & Director -
Finance & Accounting

C. Harish

Director -
Engineering & Operations

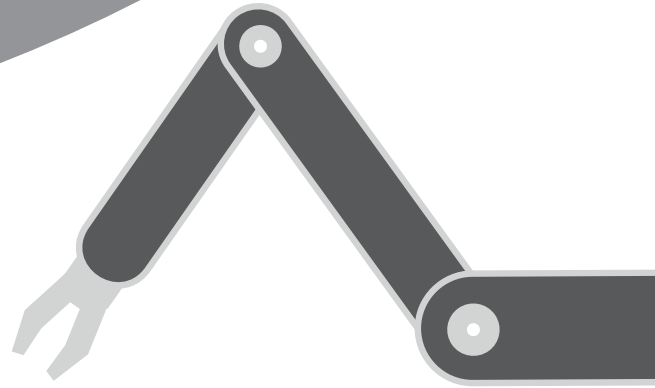

C. Thilakraj

Director -
Sales & Marketing

Malles Automated and Robotic Systems was established in 2012 as a fully owned subsidiary of the Malles Group of Companies. Our venture into the domain of technology keeps at its heart our desire to be of service and facilitate significant benefits for industries. We provide customized high-quality robotics and automation solutions at competitive prices.

VISION

Our vision is to revolutionize the way industries function by enabling customized automation and integration across a wide spectrum of robotic applications. We aim to combine our passion for robotics with practical implementation, creating an environment geared towards efficiency and betterment, thus helping companies on their journey to the pinnacle of perfection.

MISSION

Our mission is to partner with companies aiming for technological excellence by providing them with high quality automation solutions at affordable prices. Our focus is not just the machine by itself, but the cost-effective integration of our solutions within every organisation in order to create a long-term and mutually profitable relationship. We aim to thoughtfully design our systems to combine ingenuity and innovation in such a manner as to help save time and money.

CORE VALUES

EXCELLENCE IN QUALITY

CUSTOMER SATISFACTION

VALUE FOR MONEY

- Impeccable workmanship
- Dedication to superior products
 - Prompt project delivery
 - Fair practices
- Equal opportunity employment
- Integrity
 - Corporate Social Responsibility

SERVICES

PROGRAMMING

We offer programming services for highly customized and high-performing robots. Our optimized programming results in precise and wastage free robots.

SYSTEM DESIGN

We offer system design for efficient automated robotic systems. Our high-quality design techniques and experienced engineers craft reliable systems.

ROBOT DESIGN

We offer robot design services for a varied range of functionalities and applications. Our well-designed, quality-driven robots are reliable and powerful.

CONSULTANCY

We offer streamlined consultancy for robot-based automation systems for an array of applications. Our services enable problem-free implementation of automation systems.

AMC

We provide service solutions to minimize downtime and boost efficiency. Our teams are equipped to handle immediate maintenance on long-term service and support contracts.

TRAINING

We offer in-house or on-site training from experienced trainers on various operations and maintenance procedures for robot based automation systems.

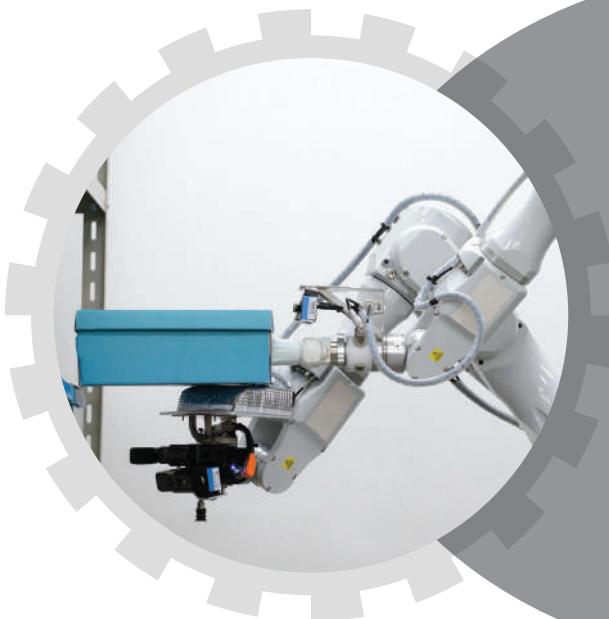

INDUSTRIES

- Aerospace
- Automobile
- Electronics
- Food and Beverage
- Foundry
- Life Sciences
- Metal manufacturing
- Mining
- Plastics and Rubber.

Our robots can safely operate in collaboration with people and can be quickly integrated into the enterprise to provide crucial gains to the company. Our robots are suited for various industries including:

ADVANTAGES

- Automation helps reduce overheads
- Decrease cycle time
- Improve quality
- Increase production
- Conserve materials
- Use space efficiently

OUR PREFERRED PARTNERS

We offer a range of quality products from various manufactures with the aim of providing our customers with the best possible options to choose from. Our product portfolio includes international brands such as:

OUR MAJOR CUSTOMERS

Our experienced team is trained to assess your needs and match your company with the products best suited for your requirements. We are always happy to answer any queries and provide additional information as necessary. Please do reach out to us and see for yourself why Malles Automated and Robotic Systems is the right choice for you.

PRECAUTIONS TO ENSURE SAFETY

We strictly advise all persons involved in operation / service of the system, including MALLES AUTOMATION AND ROBOTIC SYSTEMS to follow all safety regulations at all times. It's highly recommended to read the manuals and other safety related documents carefully. We would like to highlight that all products described in this catalogue are general industrial robots. Therefore, we request you to please contact us if you wish to use the robots for special purposes, which might endanger the operator or if the robot develops any problem. The photographs you see in this catalogue are taken after carefully removing safety fences and other safety devices that are stipulated in the safety regulations from the robot's operating system.
